

Consultancy Services - on behalf of London Borough of Hounslow

PICK
EVERARD

London Borough
of Hounslow

Company: Pick Everard

Founded: 1866

Headquarters: Leicester, UK

Website: pickeverard.co.uk

About the company: Pick Everard provides the complete consultancy service needed to delivery property and construction projects. Delivered through 11 UK offices, the firm employs over 450 staff, and has operated for over 150 years within the UK property market.

Challenges

- An ICT partner was required to 'decode' IT language to simple understandable terms.
- Schools ICT expectations did not meet the Clients budgets.
- With 20 + Schools within the project scope, the client did not have the resources or IT knowledge to ensure accountability.

One Care iT Professional Services

- Attending regular progress and building design team meetings.
- Investigating existing ICT systems (fact finding) and identifying issues & defects to provide fit for purpose, cost effective solutions.
- Created a single ICT Responsibility Matrix that applies to all parties.
- Chairing meetings and recording of minutes.
- Validating and ensuring ICT quotations received from Schools are inline with project scope.
- Liaising and coordinating project works with all disciplines.
- Testing and commissioning of systems.
- Advice on acceptance, witness testing requirements and reporting findings and observations on ICT systems.
- Advising on connectivity of incoming (external) services.
- Participating with the creation of project scope and plan of works.
- Reviewing and creating documents.

“One Care iT Limited has been our ICT Consultant since January 2016 on major and minor construction projects involving 20 + of the Boroughs prominent Schools. They are an excellent partner in the area of ICT Consultancy. They are dependable and reliable contractor whose leadership and management skills have been an added benefit to our organization.”

- Robert Munro, Senior Associate
